Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The declaration filed on Aug. 4, 2003 is acceptable.

Specification

2. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5,9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Day (5,261,124).

The limitations in claims 1-5,9 are shown in Day's Figs. 1-3, columns 1-2. Day discloses an eyeglass holder comprising: a clip 1 attachable to a visor 41 of a headwear; a fastening element 31 extending from said clip, said fastening element being adapted to fixedly hold a pair of eyeglasses 3.

Regarding claims 2,3, Day discloses said fastening element 31 is slidable and pivotable with respect to said clip 1.

Regarding claims 4,5, Day discloses an intermediate attachment element 2

Regarding claim 9, Day discloses friction enhancers 14.

Art Unit: 2873

5. Claims 1,10,11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gatchalian (5,412,812).

The limitations in claims 1,10,11 are shown in Gatchalian's Figs. 1-3, columns 3-4. Gatchalian discloses a clip attachable to a visor comprising an attachable mounting stud 31.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gatchalian.

Absence in showing the new or unobvious results and the reasons why a flag attached to the mounting stud, it would have been an obvious engineering choice to form a flag to attach to the mounting stud.

Allowable Subject Matter

8. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claims 7 and 8 are objected as being dependent upon the above objected claim.

10. The following is a statement of reasons for the indication of allowable subject matter: The limitations of "said gripping element being slidably mounted on said fastening element." in combination with the claimed subject matter are not taught or fairly suggested by the prior art or any combination thereof. These limitations could be allowable over the prior art of record.
